OUT OF HOURS (OOH) SURCHARGES

The following information is offered to assist owners and operators of aircraft utilising the services of Liverpool Aviation Services Ltd (LAS) in the calculation of Out of Hours Surcharges.

Our FBO is manned daily (Except Christmas Day, Boxing Day and New Years Day) from 0800 Local Time to 2000 Local Time. All other times are available on request.

It is standard practice for us to provide staff 30 minutes prior to the planned arrival time and for 30 minutes after departure to allow for opening up procedures and returns to the airfield.

Any arrival or departure before 0830 local will be levied an OOH surcharge.

Any arrival or departure after 1930 local will be levied an OOH surcharge.

OOH Surcharges are calculated by an initial hour which includes a call out and the initial hour. The charge is levied in full for the hour or part of that first hour. These rates are currently 120.00 GBP for the initial hour and 60.00 GBP thereafter. VAT is charged as applicable.

Subsequent hours are charged at a reduced hourly rate.

OOH surcharges are applicable to each aircraft operating within the period and any charges are not shared amongst operators.
